

BB-1600 Automatic Wicketed Bulk Bagger

Automatic Wicketed Bagger capable of receiving a large volume of product from most types of filling devices. Filled bag is automatically presented to most closing devices, including the optional JMC FuseAire 4 Hot Air Sealer. Depending on the model, the bagger fills either a wicketed, pre-made poly bag, or both a poly and a paper bag.

- Saves on manual labour
- Fully automatic
- Fast bag changeover
- Proven technology and reliable performance
- Compatible with most types of feeder devices
- Quick pay back
