

## Adjustable Master Baler

Perfect for:

- Sugar
- Flour
- Seeds
- Rice
- Cat Litter
- Pellets
- Beans

- Saves on manual labour
- Fully automatic
- Fast bag changeover
- Uses paper or poly master bags
- Can be customized to application
- Uniform master bags for easier palletizing (saves warehouse space)
- Proven technology with over 400 units in operation
- “Hands free” closing of master bags
- Menu driven controls
- Easily interfaces with Sewing Heads, Wire Tie and Taping Machines and Hot Air Sealers

Wicketed Baggers

Robotic Palletizers

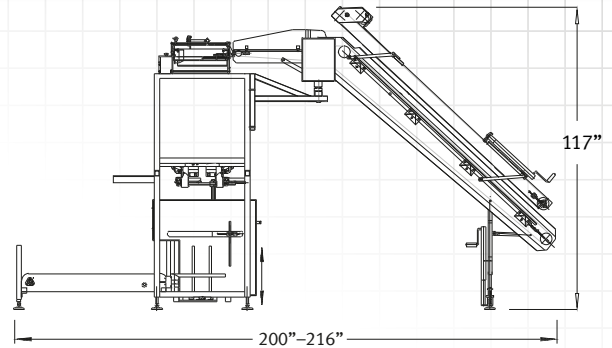

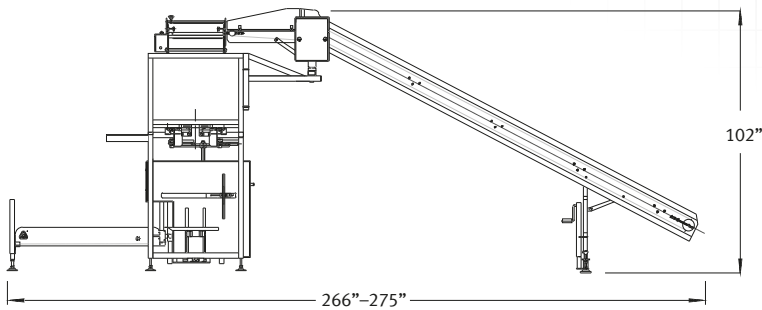

Hot Air Sealers

Master Balers

# Adjustable Master Baler

Dimensions are approximate and for reference purposes only. Consult factory for full engineering details.

The **JMC Adjustable Master Baler** is fully automatic and capable of master baling a wide variety of pre-packaged products. The baler counts and collects pre-packaged product and discharges it into either a Poly or Paper Master Bag, depending on the model chosen. The bag is then automatically placed in a closing station in an upright position for sealing. Our built-in decelerator cushions the product through this process. It can be adjusted to accommodate various sizes of product bags and is compatible with most types of baggers and closing devices. The baler also has a number of optional features, including a bypass system to divert product into cartons or totes.

## FEATURES

- OMRON P.L.C.
- Touchscreen
- Adjustable magazine
- Bag sense "no bag, no dump"
- Product decelerator
- Infeed mechanism/reciprocator
- Bale pusher with bag transport gripper
- Takeaway conveyor
- Fully approved electrical control panel with interlock
- Stainless steel panels and product contact surfaces
- Epoxy powder baked finish
- Levelling feet
- Swingaway control panel
- Up to 10 master bags per minute – consult factory
- Two year limited warranty

## OPTIONAL FEATURES

- JMC FuseAire Hot Air Sealer (trimmer available)
- Bypass system with conveyor and chute
- Spare parts kit
- Alignment conveyor
- Takeaway guides (front and rear)
- Warning systems
- Integrated sewing head
- Bale kickers
- Turnkey robotic palletizing systems

## SPECIFICATIONS

- Power: 230/460/575 volt 3 PH. 60 Hz
- Air: 6 CFM @ 80 PSI
- Approx. shipping weight: 2700 lbs.
